MEMORANDUM

TO: SCHOOLS DIVISION SUPERINTENDENTS
REGIONAL OFFICE CHIEFS OF THE FUNCTIONAL
DIVISIONS

SUBJECT: CONDUCT OF AN INTERNATIONAL TRAININGS
AND SEMINARS NOT RECOGNIZED BY DEPED
WILL NOT CREDITED

DATE: July 4, 2019

X=====

In view of some invitations made by training institutions to conduct "International" Workshop/Conference to teachers and other personnel, please be informed that DepEd is not supporting or tolerating these kind of activity.

An "International" Workshop/Conference is a unique forum bringing together the world's largest humanitarian network and nearly every government/non-government. It is a major event on the calendar of humanitarian organizations and inspire humanitarian debates, experiences, and lessons learned from participants from different parts of the world. It is a platform for organizing an event.

Attendance to "International" Workshop/Conference is not supported by DepEd unless it is conducted by a reputable organization.

To: region7@deped.gov.ph

Ms. Milagros Gabia**Chief Education Program Supervisor,,****Department of Education - Region VII****INVITATION**

Dear Ms. Gabia,

The Strategic Research and Development Center Inc. is an authorized reseller and a training institution for IBM SPSS here in the Philippines. Our company is also a market research company that caters to both local and international clients.

The company has been operating since 2010. Our main goal as a training institution (for IBM SPSS) is to educate and shape the analytical intelligence of our participants when it comes to both research and statistics. Our vision is to have a significant impact on the capacity and knowledge of our participants in research and statistics.

In lieu of this, we would like to invite you to attend our seminar-workshop in Baguio City, this coming **July 7-10, 2020 and July 13-15, 2020** at TEACHERS CAMP, Leonard Wood Rd, Baguio, 2600. The in-depth training-workshops are entitled **"Research Capability Building In-depth Training Workshop"** and **"Intermediate Statistical Analysis Seminar-Workshop"**.

Training/Seminar	Date	Price
<i>Research Capability Building In-depth Training Workshop</i>	July 7 to 10, 2020	PHP8000.00
<i>Intermediate Statistical Analysis Seminar-Workshop</i>	July 13-15, 2020	PHP7000.00

The in-depth training-workshop aims to gather participants who are writing their research paper, analyzing data, academicians (secondary, tertiary and postgraduate) and government employees whose job is to write a research and analyze data as well.

Our main objective of this training-workshop is to capacitate and teach to the participants the techniques in analyzing qualitative and quantitative data. The workshop will showcase the new ways in analyzing qualitative data, this is important to many academicians. Furthermore, the training workshop will also exhaustively and thoroughly discuss the underlying assumptions and the research question that each statistical test answers.

Specific Objectives are as follow,

**("Research Capability Building In-depth Training Workshop")* Build a clear foundation and understanding of how participants utilize statistical tests. This training-workshop will introduce both

parametric tests and non-parametric tests including regression analysis. By the end of the seminar-workshop participants will easily distinguish which statistical test will help solve the research problem.

("Research Capability Building In-depth Training Workshop"*) Capacitate participants on how to analyze and interpret qualitative data. This training workshop will teach participants to identify and analyze qualitative data in terms of recurring themes, language, opinions, and beliefs. Participants will also learn how to write for their desired audience, discuss the purpose of the study, and what content should be included to best tell the story of the data.

*The first day (of the *"Intermediate Statistical Analysis Seminar-Workshop"*) will serve as a review for the participants. It aims to discuss and enlighten participants on the difference between non-parametric tests and parametric tests. Based on our experience as a training institution, many participants do not know the difference between the two.

*The second day (of the *"Intermediate Statistical Analysis Seminar-Workshop"*) seminar-workshop aims to upgrade the research papers of the participants by introducing several regression analysis techniques. It will also explain the different regression analysis techniques.

*In the last day (of the *"Intermediate Statistical Analysis Seminar-Workshop"*) seminar, complex statistical analysis will be discussed which will help participants identify the best statistical technique that will help them explain their data. Moreover, this will help the academic community in producing a meaningful and insightful research paper.

The training fee is inclusive of covering meals (am/pm snacks and lunch), a temporary license for IBM SPSS Statistics, handouts and certificate of completion. The seminar-workshop will run for 7 hours daily.

CHED memo and CPD points are on process. This event is in partnership with the Davao Association of Catholic Schools Inc.

Thank you very much!

Sincerely,

Joseph Mythor D. Francisco, MBA

Training Coordinator
