Dear Sir/Madam,

Greetings!

FranklinCovey Education Philippines is a team of global education consultants, helping schools raise a generation of principle-centered leaders. We enable schools through transformative processes, workshops, coaching, and talks. We would like to reach out to your association, hoping to work with you, to partner with as many schools in **Developing Life-Ready Leaders in the 21st Century**.

Our research shows that schools today are faced with unprecedented challenges and will require rethinking education. According to UNESCO "Academic success is important but it cannot be the end goal of any education system. Education must pursue a grander goal; an education for human flourishing."\* With our over thirty years of organization development, principle-centered leadership training and practices, we have developed a school-wide transformational practice for educational institutions. This practice helps with social-emotional learning, 21st-century skills, leadership, character, school culture and overall academic improvement.

We would like to share our whole school transformative practice as well as our research with your membership, in the hope of partnering with schools that have the same mission and dreams as we have. It would be an honor to meet with you to talk about the details of this engagement.
