Per Enclosure No. 2 (5) of DepEd Order No. 67, s. 2012, public secondary schools are advised to inform the Division and Regional Offices, copy furnished the Bureau of Secondary Education (Attn: Curriculum Development Division), the type of TLE curriculum they have decided to offer. Same DepEd Order provides the descriptions of the two types of TLE Curriculum as follows:

1.1 The **Tech-Voc-based TLE** is designed based on the training regulations (TR) of the Technical Education and Skills Development Authority (TESDA). It focuses on technical skills development in the area of specialization that the student wants to pursue. The tech-voc-based TLE focuses on the five (5) common competencies to include mensuration and calculation, technical drafting, use of tools and equipment, maintenance of tools and equipment and occupational health and safety in the exploratory phase in Grade 7. Specialization will be offered from Grades 8 to 12.

1.2 The **Entrepreneurship Education-based TLE** is designed to develop among students some livelihood skills at the end of every quarter to enable them to start a small household enterprise with their families. It focuses on three (3) domains, namely: Personal Entrepreneurial Competencies (PECs), Market and Environment, and Process and Delivery of products and services related to the mini-course. The five common competencies: mensuration and calculation, technical drafting, use of tools and equipment, maintenance of tools and equipment and occupational health and safety are offered as part of the exploratory program in grades 7 and 8, and are later integrated in the domain of Process and Delivery in grades 9 to 12.
