Carmelita T. Dulangon
Director III, Officer-in-Charge
Department of Education Region VII

Dear Dr. Dulangon,

The Department of Chemistry of the University of Carlos, in partnership with the Philippine Federation of Chemistry Societies, will hold the **Children On-the-Spot Poster Making Competition** with a theme "**Health, Energy and Chemistry**" on February 21, 2014 from 8:00 AM - 12:00 AM.

This event aims to cultivate interest and appreciation in chemistry in the minds of the children. This will also showcase children's view on the role of chemistry in the community. This is a nationwide event, in cooperation with other universities in the country.

The event is open to all Grades IV to VII pupils, not older than twelve (12) years old, from both private and public schools. A maximum of two (2) pupils can be endorsed by each school. Registration is free and all materials to be used for the competition will be provided.

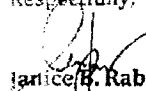

The three winning entries will join a pool of finalists at the national level. The first place winner at the national level will receive their award during the 29th Philippine Chemistry Congress which will be held on April 9-11, 2014 at Villa Caceres Hotel in Naga City, Camarines Sur. Winning posters will also be exhibited during the Congress.

Only fifty (50) contestants will be accepted to participate. Acceptance will be made on a first-come, first-served basis. Interested participants would have to confirm their registration on or before February 8, 2014, through phone call (Department of Chemistry 032-344-6715 or 032-230-0100 loc 157) or email (chemdept@usc.edu.ph).

We encouraged budding artistic pupils from both private and public schools to join as this is an opportunity for them to showcase their artworks nationwide.

Thank you.

Respectfully,

Janice B. Rabor, PhD
Organizer
