**FEATURING**  
**THE SCIENCE SHOWS**

A fun way to learn about the invention of the Wright Brothers how they got it wrong before they got it right. A spoof about the first test flight and its flight attendant's animated portrayal of the safety rules ending up with a thunderous performance in a bad weather voyage. Song and Dance and a groovy way to learn about the story of aviation.

the  
WRONG

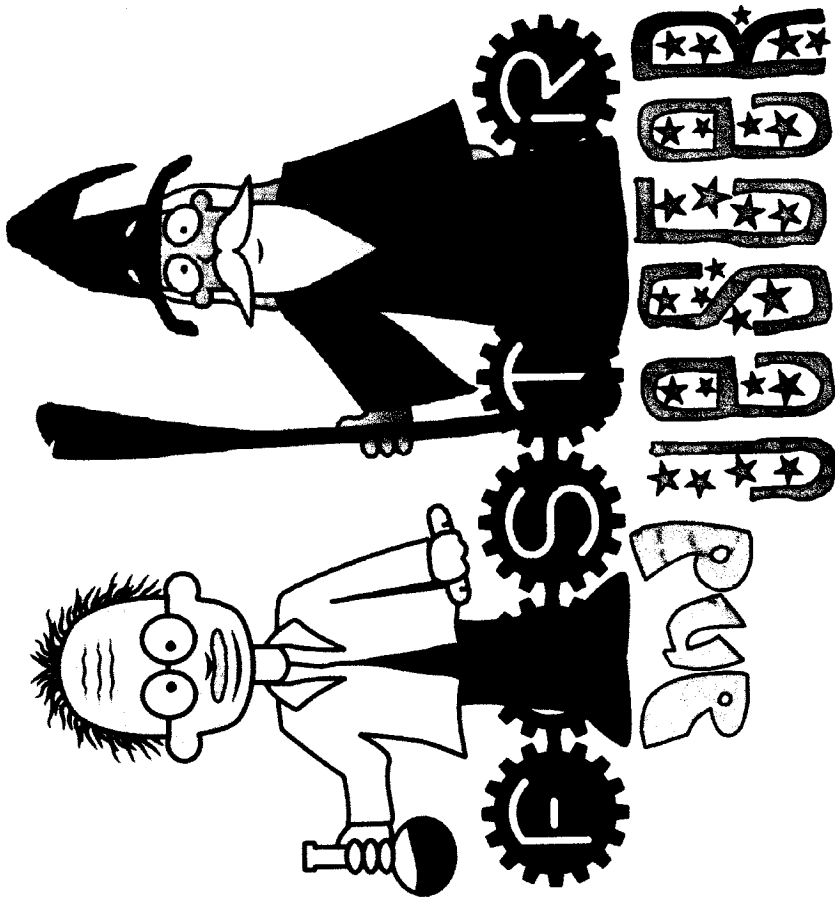

Food science musical where Mama Mi Yum prepares while singing making the food more appetizing and delicious through an enjoyable journey of cooking and mixing ingredients. After this, kids will love to cook either that or they will love singing, dancing or love food chemistry itself.

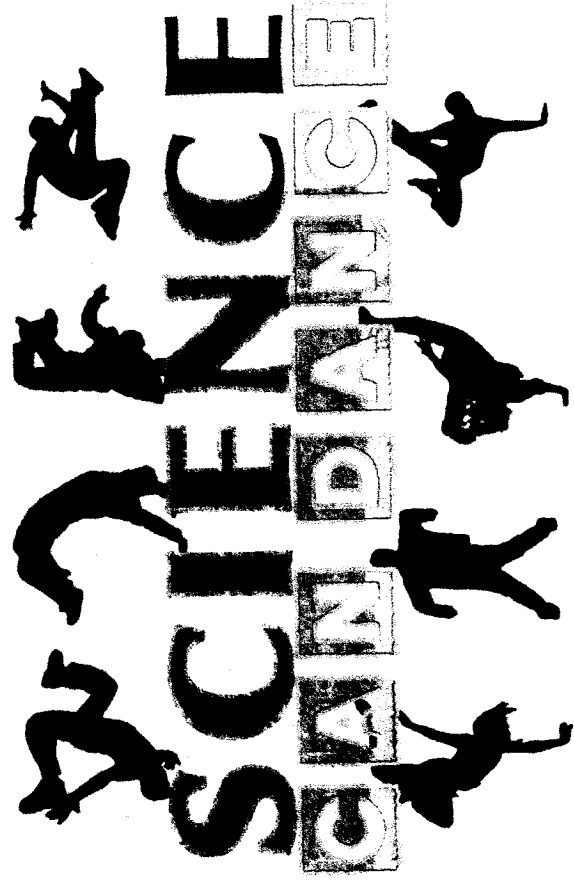

THE  
SCIENCE  
OF  
COOKING

MAMA  
mi Yum

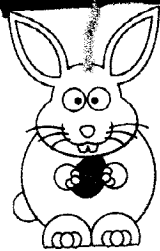

A pantomime comedy about the difference between magic and science in a highly interactive and fun way to know. Which one is better magic or Science? See this clown and magician strutt their stuff...

A big science show merging science with dance. A fusion of dance and science demonstrating 15 science experiments live on stage simulating the different the natural weird weather such as tornado, hurricane, thunder lightning featuring our volcanic eruption, lava lamp and other amazing experiments. Dance is science and science can rock and roll!

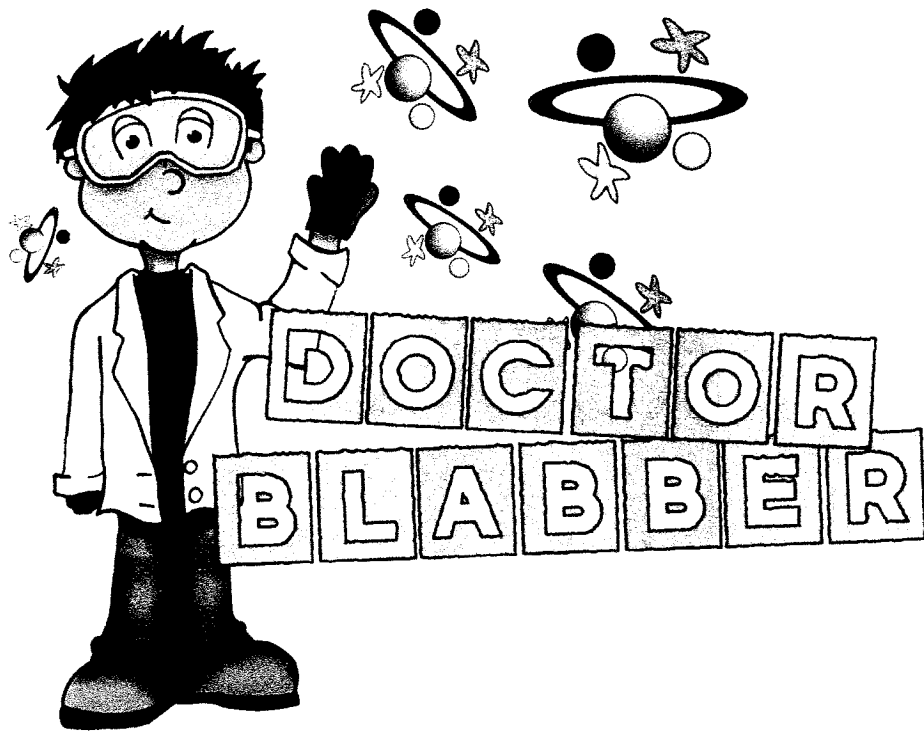

# MAN in the MOON

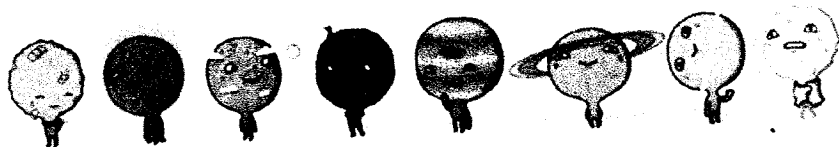

Is a story telling dark night when the man in the moon changes its phase according to time and day, how this scientist feared when he thought he was being followed by the man in the moon until he realises the moon is actually a friend helping him find his way.

Learn about the different phases of the moon with our remote control moon gadget so kids learn about the moon cycle.

A wacky scientist who lost his planets who panicked so he named each of them again until he completes the whole universe in 30 minutes of fun and laughter. A fast and furious way to learn solar system in 30 minutes.

*"ESQ 2015: Kamapagan ng Lahat, Panunangyan ng Lahat"*

October 9, 2014

To: Dr. Carmelita T. Dulangon  
Address: DepEd Cebu Region 7

Dear Dr. Dulangon:

We are inviting all schools in Cebu to participate & watch *Roving Theatre Adventures' Science Show* entitled "Science Can Dance".

Now in Cebu, "Science Can Dance" is about Global Warming, Climate Change which features extreme weird weather. Our Science theatre is live on stage incorporating Dance and Music plus 15 science experiments. This is a highly interactive show where all science experiments are demonstrated live on stage thru high powered performance of Dance and Music.

We are now bringing this Science Show to Cebu to provide students with an educational entertainment that will give them *both knowledge & fun* in one. It's going to be a fun treat for all students.

We have booked the Marcelo Fernan Press Center in Lahug Cebu as the venue from January 26 – 30, 2015 to accommodate all students, elementary & high school.

We are requesting that this becomes a required science event for all schools in Cebu. Fees per student is P100.00 per head with 20% donation to the school. We made the pricing very affordable for the students.

It is hassle free for teachers. We take care of everything from props, costumes, experiments, chemicals, science gadgets, and performers. *We set-up everything!*

Kindly check out the time schedules & days on the next page.

## **ROVING SCIENCE ADVENTURES**

### **PRESENTS**

#### **"SCIENCE CAN DANCE"**

*hiphop climate change Global warming breakdance deforestation fire greenhouse gases fossil fuels Iceberg glaciers centrifugal balance, permafrost droughts heavy rainfalls modern dance popping extreme weird weather Isolation catastrophe effects tornado*

**Venue: Marcelo Fernan Press Center**  
**Dates: January 26 – 30, 2014**

Thank you,

*Georgina Gonzalez - 09278411607*
