"EFA 2015: Karapatan ng Lahat, Pananagutan ng Lahat"

December 9, 2014

To: Dr. Juliet A. Jeruta, OIC-RD
Address: DepEd Cebu Region 7

Dear Dr. Jeruta:

We are inviting all schools in **Cebu and Region 7** to participate & watch *Live Science Interactive*.

Now in **Region 7**, *Live Science Interactive* is about Global Warming, Science, Chemistry, and enrichment programs that create fun in science for kids. Our Science theatre is live on stage incorporating Dance and Music plus **14 science experiments**. This is a highly interactive show where all science experiments are demonstrated live on stage thru high powered performance of Dance and Music.

We are now bringing this Science Show to **Cebu and Region 7** to provide students with an educational entertainment that will give them *both knowledge & fun* in one. It's going to be a fun treat for all students.

The venue will vary optionally depending on the **nearest school indoor stage facility** and will be held from **January 27 – December 30, 2015** to accommodate all students, elementary & high school.

The schools who will participate may or may not require their students to attend the science event for all schools in **Region 7**. Fees per student is **P250.00** per head with **P25** donation to the school. We made the pricing very affordable for the students.

It is hassle free for teachers. We take care of everything from props, costumes, experiments, chemicals, science gadgets, and performers. *We set-up everything!*

Kindly check out the time schedules & days on the next page.

LIVE SCIENCE INTERACTIVE

WHAT WE DO

We create and implement science programs that will create fun science experiences for kids

We create original and unique educational science shows

Support school science activities, school festival events and shopping centers make an easy and fun learning experience which will be remembered for years to come!

WE BRING INTEREST BACK!

- VISUAL EFFECTS
- DANCE AND MUSIC
- STORIES
- INTERACTIVE THEATER

CREATIVE SCIENCE

We use an art to deliver the knowledge. Kids learn faster when they are having fun. Therefore, we aim to be the #1 outsource provider, taking science to wherever kids are. Our mission is to influence and ignite the kids' love for science. This interest translates and leads them to find a career path that suits them best.

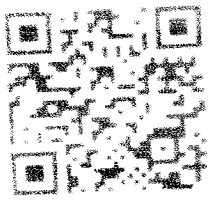

Vision-Mission

We use an art to deliver the knowledge. Kids learn faster when they are having fun.

We aim to be the #1 outsource provider, taking science to wherever kids are.

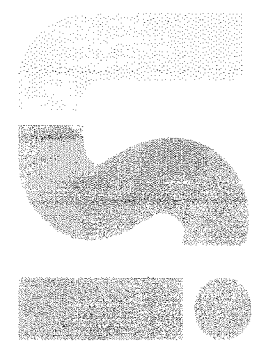

Our mission is to influence and ignite the kids' love for science. This interest translates and leads them to find a career that suits them best.

14 Amazing Experiments

We have created a story that highlights visually stunning science experiments that simply wows the audience.

These are science principles that are demonstrated in the show:

- * Bernoulli Principle
- * Hot Air Balloon
- * Lava Lamp
- * Mini Rocket Science
- * Swoosh Fire Bottle
- * Gentle-Smoke
- * Giant Smoke Rings
- * Water Tornado
- * Fire Tornado
- * Elephant's Toothpaste
- * Mentos and Coke
- * Floating Fire
- * Magical Black Snake
- * Wine Glass Music

We bring students out of the textbook. As artists in our craft, we can feel every student's desire to express what they want. It is the fun that they want to talk about all day; the enjoyment, the rush, the thrill – to cherish that moment when they felt so alive.

It is in this state of mind that they often recall things. We want to bring these kids to this state of mind by making the lessons a fun and lively experience!

ON-COURT PARTICIPATION ONLY

In movies, we learn a lot of things. We take that a step further by bringing the actors closer to the audience together in a very exciting story where they choose what the outcome will be.

Involvement is the key. You are now part of the story.

Certificate of Completion

Don't be shy! Show them how fabulous you are. Frame it up and hang it on the wall! You just made a great achievement! All attendees are given this great opportunity to have their certificates signed by the actors with their name on it!

Isn't that amazing? @

FREE T-SHIRTS, Stickers and many more!

Yes we have shirts and stickers, and other prizes to be given away to those volunteers during our live interaction part. You can choose between three fabulous shirt colors:

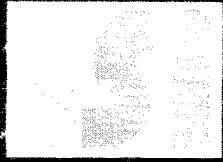

- * **Plain White** for a hot day
- * **Black** for white LSI logo and font
- * **Violet** for those who like a more stylish look
