Schools Division Superintendent
Department of Education
Division of Cebu Province
Sudlon, Lahug, Cebu City

Dear **Dr. Monisit**,

In line with the DOST-STII campaign in building back libraries for the Yolanda-stricken areas, we are please to inform you that we have identified 32 public elementary schools and 20 public high schools to be given hard disks for the use of Science and Technology Academic and Research-Based Openly-Operated Kiosk System or more popularly known as STARBOOKS.

Please find attached the list of identified schools in the 16 municipalities affected by Yolanda, and the proposed timetable of deployment for your perusal. Four training venues were also identified for the accessibility of these schools and deployment schedule is on a staggered basis to give travel time allowance to Bantayan and Camotes island municipalities.

The important technical requirements of the recipient schools are:

- Each recipient school must bring their computer units (CPU and monitor) for the training and installation of the hard disk
- All units must have an existing hard disk with operating systems installed. STII is not responsible for installing the OS for their units. The hard disk for STARBOOKS will be installed as a **SLAVE DRIVE**.
- All institutional profiles (form attached) must be submitted before the deployment date for the generation of configuration files.

Again, we are optimistic that our partnership will ensure the success of STARBOOKS in delivering science information and knowledge to our students.

Thank you very much.

Very truly yours,

EDILBERTO L. PARADELA
Regional Director

DOST -7 WORKPLAN

Project title: S&T Academic and Research-Based Openly-Operated Kiosks (STARBOOKS)

Implementing Agency: DOST- Science and Technology Information Institute

Total Duration: May 25 – June 02, 2015

- All units must have an existing hard disk with Operating system installed. STII is not responsible for installing the OS for their units. The hard disk for STARBOOKS will be installed as a SLAVE DRIVE.
- All institutional profiles must be submitted before the deployment date for the generation of configuration files.
