Language Disorders in Infants and Toddlers (Early Intervention)

September 23, 24 & 25, 2016

Venue: R.E.A.C.H., Inc., 2nd Flr., Uniwide Metro Mall, #43 Real St. Pamplona, Las Piñas City

Overview:

Knowing what's "normal" and what's not in speech and language development can help parents figure out if they should be concerned or if their child is right on schedule. It can be difficult to tell whether a child is just immature in his or her ability to communicate or has a problem that requires professional attention.

Speech-language deficits are the most common of childhood disabilities and affect about 1 in 12 children or 5% to 8% of preschool children. The consequences of untreated speech-language problems are significant and lead to behavioral challenges, mental health problems, reading difficulties, and academic failure. Speech-language impairments embrace a wide range of conditions that have, at their core, challenges in effective communication.

Who are invited?

- Policy Makers
- School Administrators
- Regular/SPED Teachers
- Related Disciplines (OTs/SLPs, ABA Therapists, Social Workers, Psychologists, etc.)
- Undergraduate/Graduate/Post Graduate Students
- Parents
- Anyone who works for 2e students

Registration Fee:

Inclusive of Seminar Kits, Certificate of Attendance/Appearance, AM & PM Snacks and Lunch

Participants	Early Bird – September 9, 2016	After Early Bird/Onsite
Professionals: School Administrators, SPED/Regular Teachers/Related Services	PhP5,500.00	PhP6,000.00
Parents of Exceptional		

Children	PhP5,000.00	PhP5,500.00
REACH Students	PhP4,500.00	PhP5,000.00

Registration fee excludes: *contact us for details

- Hotel accommodation
- Round trip Airfare Ticket
- Land arrangement

Language Disorders in Infants and Toddlers (Early Intervention)

September 23, 24 & 25, 2016

Venue: R.E.A.C.H., Inc., 2nd Flr., Uniwide Metro Mall, #43 Real St. Pamplona, Las Piñas City

Overview:

Knowing what's "normal" and what's not in speech and language development can help parents figure out if they should be concerned or if their child is right on schedule. It can be difficult to tell whether a child is just immature in his or her ability to communicate or has a problem that requires professional attention.

Speech-language deficits are the most common of childhood disabilities and affect about 1 in 12 children or 5% to 8% of preschool children. The consequences of untreated speech-language problems are significant and lead to behavioral challenges, mental health problems, reading difficulties, and academic failure. Speech-language impairments embrace a wide range of conditions that have, at their core, challenges in effective communication.

Objectives:

At the end of the three-day seminar-workshops, the participants will:

1. Learn Etiology, Neurobiology, and Prevalence of Speech-Language Impairments;
2. Explain Course and Prognosis
3. Gain knowledge on Screening and Early Assessment of Speech-Language Disorders
4. Understand the characteristics of Communication Disorders as described in the DSM-V;
5. Gain knowledge on screening for other potential contributors to Speech-Language Deficits
6. Discuss the components of a Diagnostic Evaluation of Speech-Language Impairment and the Nature of Interventions
7. Implement Intervention Approaches and Outcomes
8. Create plans for various Case Studies presented.

Who are invited?

- Policy Makers
- School Administrators
- Regular/SPED Teachers

- Related Disciplines (OTs/SLPs, ABA Therapists, Social Workers, Psychologists, etc.)
- Undergraduate/Graduate/Post Graduate Students
- Parents
