GLOBAL COMPETITIVENESS through Quality Education

July 31, 2018

Dr. Rhea Mar A. Angtud
Schools Division Superintendent
DepEd- Division of Cebu Province
Sudlon, Cebu City

Dear Dr. Angtud:

The internationalization of academic institutions demands educators and students to compete in the global market. This creates an increasingly critical need for English language proficient teachers.

In an effort to address the challenge of enhancing teachers' pedagogical skills in motivating students to learn through English while improving their language proficiency at the same time, ARCZONE Professional Development, Inc. is offering a 4-day language enhancement module dubbed as ***"English language proficiency for classroom teachers and school heads: A module on strengthening English language communication in Philippine classrooms"***.

This module is intended for English and non-English teachers who have a serious desire to improve their English communication skills for general and professional purposes. Moreover, this is ARCZONE's response to requests of teachers to conduct seminars in preparation for the **Test of English Proficiency for Teachers (TEPT)** administered by DepEd.

The overall goal of the program is to provide opportunities for teachers to look into their English language difficulties and to do the necessary catch-up for what is missing in their pre-service preparation. The sessions cover language enhancement on listening, speaking, reading and writing with particular emphasis on the languages demands of TEPT namely reading, structure and written expression. Further emphasis is placed on developing teachers' practical communication skills that are necessary inside and outside the classroom.

Specifically, the 4-day module aims to:

- assess the English language strengths and weaknesses of participants
- improve participants' pronunciation, rhythm and intonation in English
- build confidence, fluency and speaking competence by learning the vocabulary and grammatical forms needed in everyday social communication and in an academic environment
- reinforce the basics of written English and practice writing through a variety of tasks
